

## GMUN EXPRESS February 2014

### Committee: DISEC: Disarmament and international security committee

**Best Delegate:** United States of America - Tushar Kaistha

**Best Speaker:** United Kingdom - Divij Khosla

**Honourable Mentions:**

Greece - Apoorva Gupta (GDGWI)

Russian Federation Saumay Kinra

32 delegates represented their countries in this committee. The agenda was Space warfare and Cyber wars, a very significant agenda in today's world. The committee limped to full working as some delegates entered late and soon a rivalry grew between the Delegates of Greece and the United Kingdom to which the delegate of Ukraine used "non diplomatic language" and the Delegate of DPRK added to the humor by saying "The chair needs to kick both of them out of the committee" reprimanded by the chair for the comment.

The Delegate of the United Kingdom was soon barred from the committee for 15 minutes as he violated the chair's caution continuously speaking raising the order to right to speak. This was an opportunity seen by the Delegate of Greece and she made allies with Pakistan, Russia and Iran after which Greece broke off all diplomatic relations with UK and Russia, Pakistan and Iran broke off partial relations.

As soon as the UK was informed about this, they stopped the 2mn pounds funding to Greece and deported all of the 45000 Greek students in UK out of which 25000 were accepted by USA and 20,000 by another nation.

A deep crisis developed when The anonymous group hijacked not only hacked into but also took complete control of \ the American project 'Vision for 2020' they also discovered the Israeli space Weapons

All hell breaks loose as the delegate of UK accused the Delegate of Russia for supporting the anonymous group while there are no positive reports of any links between the Russian government and Anonymous. Delegate of Russia strongly objected only to be retorted by the delegate of Israel "we are trying to shut down those space weapons, we only had them because we are surrounded by enemies such as Palestine" to which the delegate of New Zealand raised concerns as to "why does Israel have space weapons for neighboring enemies, wouldn't it

be easier to use ground missiles instead?"The crisis further deepened with the update and confirmation that Anonymous group was funded by the Russian government and UK and USA had mobilized their missiles against Russia. UK questioned the Ukrainian government as to how come they aren't condemning Russian action since they have control over Ukraine's Crimea region, to which the Ukrainian delegate kept quiet. After moderate and un moderate causes the resolution was passed by the committee.

### Some famous quotes:

UK: "This world does not work on suspicion, if Russia wants war then they will get war and the UK and US will fight till their last bullet"

Japan: Pleads for World Peace and foreshadows a 3rd WW which will be a nuclear War.
