# Volunteer Program

One can be a part of Lakshh by volunteering for the change. Volunteers would be expected to mainly take care of Lakshh's campaign in various places. All volunteers working proactively and solely for the true motive will be given Lakshh labelled certificates for their commendable contribution to the society and will be featured on the Lakshh-website.

You can register as a volunteer from our **get involved** section on our website.

Each volunteer would be assigned with a distinct role to perform.

To keep the authenticity of the organization the discretion lies with the founding members as to which volunteer gets what role. Depending on the commitment a volunteer portrays, his/her designation would be incremented.
