

Grade five students of GD Goenka presented a nukkad natak on Raahgiri Day.

## Raahgiri Day

GD Goenka Primary Years Programme initiated their participation at the Raahgiri Day. Grade five students, as a part of their current unit on Nutritional Deficiencies, came out to spread the awareness through a nukkad natak along with a walkathon. The students assembled at the Galleria Market and took their marathon way up to the Vyaapar Kendra market. They carried informative posters and banners on various nutrients with bright caricatures which was quite catchy yet educative. They were greeted with a crowd which gave them patient ears and appreciated their efforts. The children presented a street play, Jeene Ki Raah, which highlighted the daily worries of modern day parents whose children binge on junk food. Children passionately recited slogans on their way back. Parents along with the general crowd appreciated the efforts of the initiative which motivated the young crowd for pledging towards healthy habits.
