1. Introduction

1.1 Why choose Cambridge?

Cambridge International Examinations is part of the University of Cambridge. We prepare school students for life, helping them develop an informed curiosity and a lasting passion for learning. Our international qualifications are recognised by the world's best universities and employers, giving students a wide range of options in their education and career. As a not-for-profit organisation, we devote our resources to delivering high-quality educational programmes that can unlock learners' potential.

Our programmes set the global standard for international education. They are created by subject experts, are rooted in academic rigour, and provide a strong platform for progression. Over 10 000 schools in 160 countries work with us to prepare nearly a million learners for their future with an international education from Cambridge.

Cambridge learners

Cambridge programmes and qualifications develop not only subject knowledge but also skills. We encourage Cambridge learners to be:

- **confident** in working with information and ideas – their own and those of others
- **responsible** for themselves, responsive to and respectful of others
- **reflective** as learners, developing their ability to learn
- **innovative** and equipped for new and future challenges
- **engaged** intellectually and socially, ready to make a difference.

Recognition

Cambridge IGCSE is recognised by leading universities and employers worldwide, and is an international passport to progression and success. It provides a solid foundation for moving on to higher level studies. Learn more at www.cie.org.uk/recognition

Support for teachers

A wide range of materials and resources is available to support teachers and learners in Cambridge schools. Resources suit a variety of teaching methods in different international contexts. Through subject discussion forums and training, teachers can access the expert advice they need for teaching our qualifications. More details can be found in Section 2 of this syllabus and at www.cie.org.uk/teachers

Support for exams officers

Exams officers can trust in reliable, efficient administration of exams entries and excellent personal support from our customer services. Learn more at www.cie.org.uk/examsOfficers

Our systems for managing the provision of international qualifications and education programmes for learners aged 5 to 19 are certified as meeting the internationally recognised standard for quality management, ISO 9001:2008. Learn more at www.cie.org.uk/ISO9001

1.2 Why choose Cambridge IGCSE?

Cambridge IGCSEs are international in outlook, but retain a local relevance. The syllabuses provide opportunities for contextualised learning and the content has been created to suit a wide variety of schools, avoid cultural bias and develop essential lifelong skills, including creative thinking and problem-solving.

Our aim is to balance knowledge, understanding and skills in our programmes and qualifications to enable students to become effective learners and to provide a solid foundation for their continuing educational journey.

Through our professional development courses and our support materials for Cambridge IGCSEs, we provide the tools to enable teachers to prepare learners to the best of their ability and work with us in the pursuit of excellence in education.

Cambridge IGCSEs are considered to be an excellent preparation for Cambridge International AS and A Levels, the Cambridge AICE (Advanced International Certificate of Education) Group Award, Cambridge Pre-U, and other education programmes, such as the US Advanced Placement program and the International Baccalaureate Diploma programme. Learn more about Cambridge IGCSEs at www.cie.org.uk/cambridgesecundary2

Guided learning hours

Cambridge IGCSE syllabuses are designed on the assumption that learners have about 130 guided learning hours per subject over the duration of the course, but this is for guidance only. The number of hours required to gain the qualification may vary according to local curricular practice and the learners' prior experience of the subject.

1.3 Why choose Cambridge IGCSE Economics?

Cambridge IGCSE Economics is accepted by universities and employers as proof of knowledge and understanding of economics. Successful Cambridge IGCSE Economics candidates gain lifelong skills, including:

- an understanding of economic theory, terminology and principles
- the ability to apply the tools of economic analysis
- the ability to distinguish between facts and value judgements in economic issues
- an understanding of, and an ability to use, basic economic numeracy and literacy
- the ability to take a greater part in decision-making processes in everyday life
- an understanding of the economies of developed and developing nations
- an excellent foundation for advanced study in economics.

Prior learning

Candidates beginning this course are not expected to have studied economics previously.

Progression

Cambridge IGCSE Certificates are general qualifications that enable candidates to progress either directly to employment, or to proceed to further qualifications.

Candidates who are awarded grades C to A* in Cambridge IGCSE Economics are well prepared to follow courses leading to Cambridge International AS and A Level Economics, or the equivalent.

1.4 Cambridge ICE (International Certificate of Education)

Cambridge ICE is a group award for Cambridge IGCSE. It gives schools the opportunity to benefit from offering a broad and balanced curriculum by recognising the achievements of learners who pass examinations in a number of different subjects.

Learn more about Cambridge ICE at www.cie.org.uk/cambridgesecundary2

1.5 How can I find out more?

If you are already a Cambridge school

You can make entries for this qualification through your usual channels. If you have any questions, please contact us at info@cie.org.uk

If you are not yet a Cambridge school

Learn about the benefits of becoming a Cambridge school at www.cie.org.uk/startcambridge. Email us at info@cie.org.uk to find out how your organisation can register to become a Cambridge school.

2. Teacher support

2.1 Support materials

We send Cambridge syllabuses, past question papers and examiner reports to cover the last examination series to all Cambridge schools.

You can also go to our public website at **www.cie.org.uk/igcse** to download current and future syllabuses together with specimen papers or past question papers and examiner reports from one series.

For teachers at registered Cambridge schools a range of additional support materials for specific syllabuses is available from Teacher Support, our secure online support for Cambridge teachers. Go to **<http://teachers.cie.org.uk>** (username and password required).

2.2 Endorsed resources

We work with publishers providing a range of resources for our syllabuses including print and digital materials. Resources endorsed by Cambridge go through a detailed quality assurance process to ensure they provide a high level of support for teachers and learners.

We have resource lists which can be filtered to show all resources, or just those which are endorsed by Cambridge. The resource lists include further suggestions for resources to support teaching.

2.3 Training

We offer a range of support activities for teachers to ensure they have the relevant knowledge and skills to deliver our qualifications. See **www.cie.org.uk/events** for further information.

3. Syllabus content at a glance

All candidates study the following topics.

Section	Topics
1. Basic economic problem: choice and the allocation of resources	<ul style="list-style-type: none"> • economic problem • factors of production • opportunity cost • resource allocation • choice • production possibility curves.
2. The allocation of resources: how the market works; market failure	<ul style="list-style-type: none"> • market and mixed economic systems • demand and supply analysis • price elasticity • market failure • social and private costs and benefits.
3. The individual as producer, consumer and borrower	<ul style="list-style-type: none"> • functions of money • exchange • central banks, stock exchanges and commercial banks • labour market • motives for spending, saving and borrowing.
4. The private firm as producer and employer	<ul style="list-style-type: none"> • types and sizes of business organisation • demand for factors of production • costs and revenue • profit maximisation and other business goals • perfect competition • monopoly • advantages and disadvantages of increased scale.
5. Role of government in economy	<ul style="list-style-type: none"> • government as a producer and an employer • aims of government economic policy • fiscal, monetary and supply-side policies • types of taxation • possible policy conflicts • government's influence on private producers.

6. Economic indicators	<ul style="list-style-type: none"> • price indices • inflation and deflation • employment and unemployment • GDP, economic growth and recession • GDP and other measures of living standards.
7. Developed and developing economies: trends in production, population and living standards	<ul style="list-style-type: none"> • developed and developing countries • absolute and relative poverty • alleviating poverty • population growth • differences in living standards.
8. International aspects	<ul style="list-style-type: none"> • specialisation • current account of the balance of payments • current account deficits and surpluses • exchange rate fluctuations • protectionism and free trade.

4. Assessment at a glance

The assessment has two components, Paper 1: Multiple choice and Paper 2: Structured questions. Candidates must take both papers. Candidates receive grades from A* to G.

Paper 1 Multiple choice	45 minutes
Candidates answer 30 multiple choice questions. Weighted at 30% of total available marks.	
Paper 2 Structured questions	2 hours 15 minutes
Candidates answer one compulsory question, which requires them to interpret and analyse previously unseen data relevant to a real economic situation, and three optional questions from a choice of six. Weighted at 70% of total available marks.	

Availability

This syllabus is examined in the June and November examination series. This syllabus is also available for examination in March for India only.

This syllabus is available to private candidates.

Detailed timetables are available from www.cie.org.uk/examsOfficers

Centres in the UK that receive government funding are advised to consult the Cambridge website www.cie.org.uk for the latest information before beginning to teach this syllabus.

Combining this with other syllabuses

Candidates can combine this syllabus in an exam series with any other Cambridge syllabus, except:

- syllabuses with the same title at the same level
- 2281 Cambridge O Level Economics.

Please note that Cambridge IGCSE, Cambridge International Level 1/Level 2 Certificate and Cambridge O Level syllabuses are at the same level.

5. Syllabus aims and assessment objectives

5.1 Syllabus aims

The aims below describe the educational purposes of a course in economics for the Cambridge IGCSE exam.

The aims are to:

- 1 develop candidates' knowledge and understanding of economic terminology, principles and theories
- 2 develop candidates' basic economic numeracy and literacy and their ability to handle simple data including graphs and diagrams
- 3 develop candidates' ability to use the tools of economic analysis in particular situations
- 4 show candidates how to identify and discriminate between differing sources of information and how to distinguish between facts and value judgements in economic issues
- 5 develop candidates' ability to use economic skills (with reference to individuals, groups and organisations) to understand better the world in which they live
- 6 develop candidates' understanding of the economies of developed and developing nations and of the relationships between them; and to develop their appreciation of these relationships from the perspective of both developed and developing nations.

5.2 Assessment objectives and their weightings

The three assessment objectives in Cambridge IGCSE Economics are:

AO1: Knowledge with understanding

AO2: Analysis

AO3: Critical evaluation and decision-making.

AO1: Knowledge with understanding

Candidates should be able to:

- show knowledge and understanding of economic facts, definitions, concepts, principles and theories
- use economic vocabulary and terminology.

AO2: Analysis

Candidates should be able to:

- select, organise and interpret data
- apply economic knowledge and understanding in written, numerical, diagrammatic and graphical form
- use economic data, to recognise patterns in such data, and to deduce relationships.

AO3: Critical evaluation and decision-making

Candidates should be able to:

- distinguish between evidence and opinion, make reasoned judgements and communicate those judgements in an accurate and logical manner
- recognise that economic theory has various limits and uncertainties
- evaluate the social and environmental implications of particular courses of economic action
- draw conclusions from economic information and critically evaluate economic data
- communicate conclusions in a logical and clear manner.

The weightings given to the assessment objectives are:

Assessment objective	Paper 1 (%)	Paper 2 (%)	Overall (%)
AO1: Knowledge with understanding	45 ± 5	20 ± 5	28 ± 5
AO2: Analysis	55 ± 5	35 ± 5	41 ± 5
AO3: Critical evaluation and decision-making	0	45 ± 5	31 ± 4

The assessment objectives are weighted to give an indication of their relative importance. The weightings are not intended to provide a precise statement of the number of marks allocated to particular assessment objectives.

6. Syllabus content

6.1 Basic economic problem: choice and the allocation of resources

Candidates should be able to:

- define the nature of the economic problem (finite resources and unlimited wants)
- define the factors of production (land, labour, capital, enterprise)
- define opportunity cost and analyse particular circumstances to illustrate the concept
- demonstrate how production possibility curves can be used to illustrate choice and resource allocation
- evaluate the implications of particular courses of action in terms of opportunity cost.

6.2 The allocation of resources: how the market works; market failure

Candidates should be able to:

- describe the allocation of resources in market and mixed economic systems; describe the terms primary, secondary and service (tertiary) sector in an economy
- demonstrate the principle of equilibrium price and analyse simple market situations with changes in demand and supply
- describe the causes of changes in demand and supply conditions and analyse such changes to show effects in the market
- define price elasticity of demand and supply and perform simple calculations
- demonstrate the usefulness of price elasticity in particular situations such as revenue changes, consumer expenditure
- evaluate the merits of the market system
- describe the concept of market failure and explain the reasons for its occurrence
- define private and social costs¹ and benefits and discuss conflicts of interest in relation to these costs and benefits in the short-term and long-term through studies of the following issues:
 - conserving resources versus using resources
 - public expenditure versus private expenditure.

¹ Social costs are equal to the sum of private costs and external costs.

6.3 The individual as producer, consumer and borrower

Candidates should be able to:

- describe the functions of money and the need for exchange
- describe the functions of central banks, stock exchanges, commercial banks
- identify the factors affecting an individual's choice of occupation (wage factors and non-wage factors)
- describe likely changes in earnings over time for an individual
- describe the differences in earnings between different groups of workers (male/female; skilled/unskilled; private/public; agricultural/manufacturing/services)
- describe trade unions and analyse their role in an economy
- describe the benefits and disadvantages of specialisation for the individual
- analyse the different motives for spending, saving and borrowing
- discuss how and why different income groups have different expenditure patterns (spending, saving and borrowing).

6.4 The private firm as producer and employer

Candidates should be able to:

- describe the type of business organisation in the public and private sectors: sole trader (proprietor), public limited companies, multinationals, cooperatives, state-owned enterprises (public corporations)
- describe the effects of moving firms from the public sector to the private sector and *vice versa*
- describe and evaluate the effects of changes in the structure of business organisations
- describe what determines the demand for factors of production
- distinguish between labour-intensive and capital-intensive production
- define productivity and recognise the difference between productivity and production
- define total and average cost, fixed and variable cost and perform simple calculations
- analyse particular situations to show changes in total and average cost as output changes
- define total and average revenue and perform simple calculations
- describe the principle of profit maximisation as a goal and recognise that business organisations may have different goals
- describe the characteristics of perfect competition and monopoly
- describe pricing and output policies in perfect competition and monopoly
- describe the main reasons for the different sizes of firms (size of market, capital, organisation)
- describe and evaluate integration, economies and diseconomies of scale
- discuss the advantages and disadvantages of monopoly.

6.5 Role of government in an economy

Candidates should be able to:

- describe the government as a producer of goods and services and as an employer
- describe the aims of government policies, such as full employment, price stability, economic growth, redistribution of income, balance of payments stability
- explain fiscal, monetary and supply-side policies
- analyse the use of fiscal, monetary and supply-side policies
- discuss the possible conflicts between government aims
- describe the types of taxation (direct, indirect, progressive, regressive, proportional) and the impact of taxation
- discuss the government's influence (regulation, subsidies, taxes) on private producers.

6.6 Economic indicators

With regards to **prices**, candidates should be able to:

- describe how a consumer prices index/retail prices index is calculated
- discuss the causes and consequences of inflation
- discuss the causes and consequences of deflation.

With regards to **employment**, candidates should be able to:

- describe the changing patterns and levels of employment
- discuss the causes and consequences of unemployment.

With regards to **output**, candidates should be able to:

- define Gross Domestic Product (GDP)
- describe and have a general understanding of the causes and consequences of economic growth
- define the term recession
- describe and evaluate measures and indicators of comparative living standards, such as GDP per head, Human Development Index (HDI).

6.7 Developed and developing economies: trends in production, population and living standards

Candidates should be able to:

- describe why some countries are classified as developed and others are not
- describe the difference between absolute and relative poverty
- recognise and discuss policies to alleviate poverty
- describe the factors that affect population growth (birth rate, death rate, fertility rate, net migration) and discuss reasons for the different rates of growth in different countries
- analyse the problems and consequences of these population changes for countries at different stages of development
- describe the effects of changing size and structure of population on an economy
- discuss differences in standards of living within countries and between countries, both developed and developing.

6.8 International aspects

Candidates should be able to:

- describe the benefits and disadvantages of specialisation at regional and national levels
- describe the structure of the current account of the balance of payments
- discuss the causes and consequences of current account deficits and surpluses
- define exchange rates
- discuss the causes and consequences of exchange rate fluctuations
- describe methods of trade protection
- discuss the merits of free trade and protection.

7. Grade descriptions

Cambridge provides grade descriptions to give a general indication of what a candidate must achieve for a particular grade. The actual grade given to the candidate will depend on how well they have met the assessment objectives overall. A candidate's weakness in one aspect of the exam may be balanced by above average performance in some other aspect.

Grade A

To achieve a Grade A, a candidate must show mastery of the syllabus and an outstanding performance on the more academic problems. Within the separate assessment objectives, a candidate awarded a Grade A must show:

AO1: Knowledge with understanding

- an excellent ability to identify detailed facts and principles in relation to the content of the syllabus
- an excellent ability to describe clearly graphs, diagrams, tables
- a thorough ability to define the concepts and ideas of the syllabus.

AO2: Analysis

- an excellent ability to classify and comment on information
- an ability to apply this information in a logical and well-structured manner to illustrate the application of economic analysis to a particular situation.

AO3: Critical evaluation and decision-making

- a thorough ability to classify and order information
- a sound ability to discriminate between varied sources of information and to distinguish clearly between facts and opinions
- a sound ability to make clear, reasoned judgements and to communicate them in an accurate and logical manner.

Grade C

To achieve a Grade C, a candidate must show a good understanding of the syllabus and some ability to answer questions that are pitched at a more academic level. Within the separate assessment objectives, a candidate awarded a Grade C must show:

AO1: Knowledge with understanding

- a sound ability to identify detailed facts and principles in relation to the content of the syllabus
- a sound ability to describe clearly graphs, diagrams, tables
- a sound ability to define the concepts and ideas of the syllabus.

AO2: Analysis

- an ability to use and comment on information
- an ability to apply this information to illustrate the application of economic analysis to a particular situation.

AO3: Critical evaluation and decision-making

- an ability to interpret information accurately
- an ability to discriminate between varied sources of information and to distinguish clearly between facts and opinions
- an ability to evaluate and make reasoned judgements.

Grade F

To achieve a Grade F, a candidate must show some familiarity with the central concepts and ideas in the syllabus. Within the separate assessment objectives, a candidate awarded a Grade F must show:

AO1: Knowledge with understanding

- some ability to identify specific facts or principles in relation to the content of the syllabus
- some ability to describe graphs, diagrams, tables.

AO2: Analysis

- some ability to classify data in a simple way and some ability to select relevant information from a set of data
- some ability to apply the tools of economic analysis to particular situations.

AO3: Critical evaluation and decision-making

- a limited ability to discriminate between different sources of information and to describe the difference between facts and opinions
- some ability to use information relating to a particular topic.

8. Other information

Equality and inclusion

Cambridge International Examinations has taken great care in the preparation of this syllabus and assessment materials to avoid bias of any kind. To comply with the UK Equality Act (2010), Cambridge has designed this qualification with the aim of avoiding direct and indirect discrimination.

The standard assessment arrangements may present unnecessary barriers for candidates with disabilities or learning difficulties. Arrangements can be put in place for these candidates to enable them to access the assessments and receive recognition of their attainment. Access arrangements will not be agreed if they give candidates an unfair advantage over others or if they compromise the standards being assessed.

Candidates who are unable to access the assessment of any component may be eligible to receive an award based on the parts of the assessment they have taken.

Information on access arrangements is found in the *Cambridge Handbook* which can be downloaded from the website www.cie.org.uk/examsofficer

Language

This syllabus and the associated assessment materials are available in English only.

Grading and reporting

Cambridge IGCSE results are shown by one of the grades A*, A, B, C, D, E, F or G indicating the standard achieved, A* being the highest and G the lowest. 'Ungraded' indicates that the candidate's performance fell short of the standard required for grade G. 'Ungraded' will be reported on the statement of results but not on the certificate. The letters Q (result pending), X (no results) and Y (to be issued) may also appear on the statement of results but not on the certificate.

Entry codes

To maintain the security of our examinations, we produce question papers for different areas of the world, known as 'administrative zones'. Where the component entry code has two digits, the first digit is the component number given in the syllabus. The second digit is the location code, specific to an administrative zone. Information about entry codes can be found in the *Cambridge Guide to Making Entries*.
